**Style Number:** 8500  
**Service:** Pump and Valve Packing  
**Product Type :** Braided Packing

**Description:**

Braided from Carbon filament and impregnated with PTFE and graphite, Style 8500 is ideal for demanding applications. Style 8500 is a self-lubricating, low friction packing good for most applications where a highly abrasion resistant, high speed packing is needed. Our proprietary lubrication process reduces shaft wear, while maintaining excellent packing to shaft contact. Style 8500 has the high heat dissipating qualities of carbon and graphite, with the added chemical resistance of PTFE. Style 8500 also reduces water consumption as well as pump maintenance and downtime, saving you money!

<b>Construction:</b>	Interlock Braid
<b>Temperature Rating:</b>	650° F / 345°C
<b>pH Rating:</b>	0 - 14
<b>Shaft Speed Rating:</b>	4000 FPM / 20 MPS
<b>Pressure Rating:</b>	300 PSI / 20 BAR
