Style Number: 300SA
Service: Slurry Pump Packing
Product Type : Braided Packing

Description:

Braided from high strength Spun Aramid yarn, Style 300SA is thoroughly impregnated with a PTFE dispersion and a proprietary inert lubricant for quick break in. Style 300SA is also easy to cut and install, staying soft and conformable, yet strong enough to handle the toughest abrasive applications. Style 300SA is also non-staining and non-contaminating, combining superior strength with superior sealing.
