Style Number: 344JS
Service: PTFE Gasket Tape
Product Type : Expanded PTFE Extrusion

Description:

Manufactured from continuous 100% Virgin Teflon, Style 344JS is a conformable, but dimensionally stable gasket tape. Internally cross fibrillated PTFE is soft enough to conform to worn or uneven surfaces, but dense enough to create a secure seal requiring little adjustment. An adhesive backing is applied after extrusion to make installation quick and easy. Style 344JS has an unlimited shelf life, and resists both creep and cold flow in application.

Construction:	Extrusion
Temperature Rating:	600° F / 315°C
pH Rating:	0 – 14
Shaft Speed Rating:	N/A
Pressure Rating:	3000 PSI / 210 BAR
