Fax 732-938-6377

Style Number: 895
Service: Pump and Valve Packing
Product Type : Braided Packing

Description:

Braided from soft annealed copper, Style 895 is designed for use as a bull or anti-extrusion ring. Through our unique braiding process, 895 is extremely dense but still remains flexible, making it easy to cut and install.

Construction:	Plait Braided
Temperature Rating:	1500° F / 816°C
