*Far away,
hundreds of feet below
a rather unremarkable barn,
in the middle of a rather
forgettable town...*

*...is the
secret laboratory of the
Wunderkind Corporation...*

*She created
new life.*

*Children whose powers
eclipsed even the
strongest of adults...*

One had the ability to manipulate and create gravitational fields.

The other, born with the power of electromagnetic energy.

Their mission was simple.

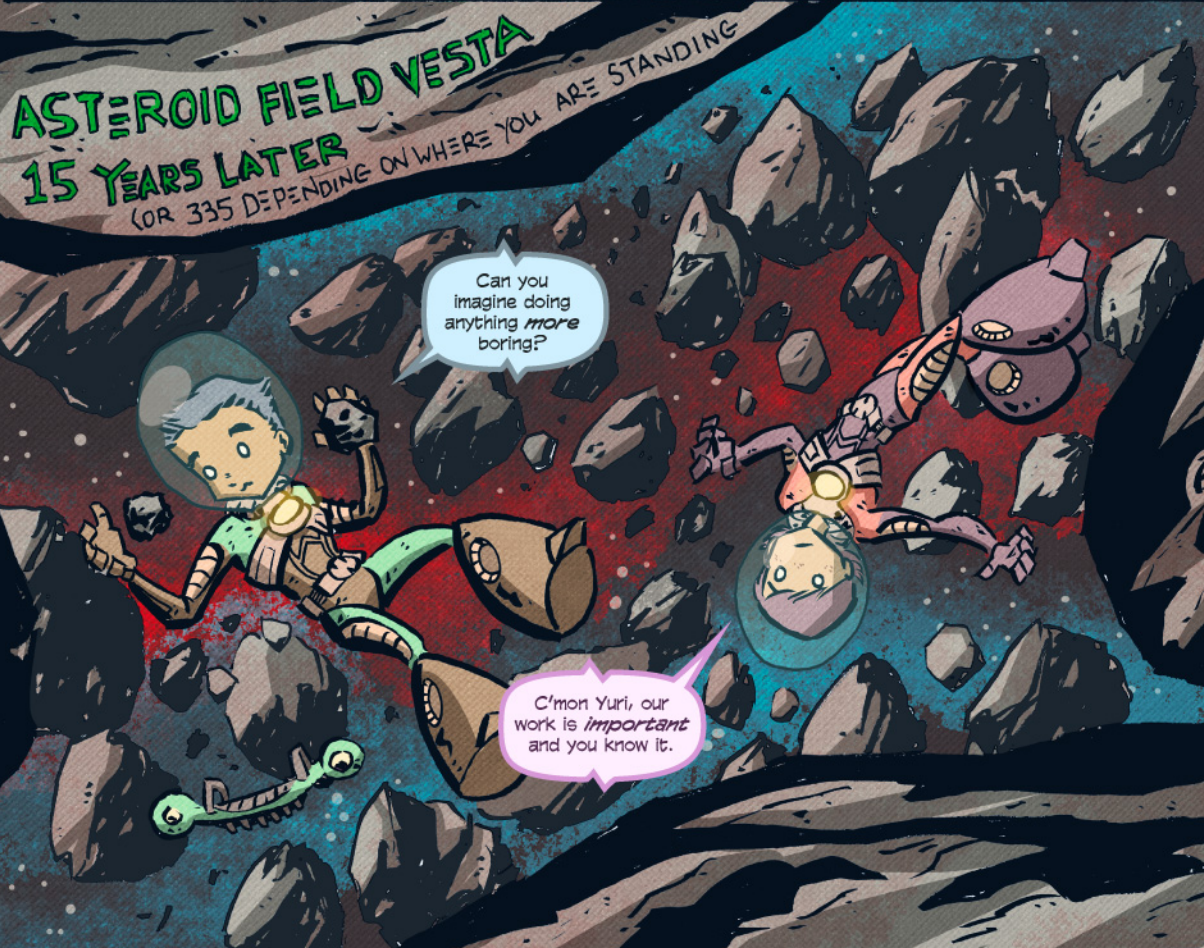

Travel hundreds of light years into dangerous uncharted areas of space with one singular, valiant purpose...

"Collect and analyze mineral samples."

ASTEROID FIELD VESTA
15 YEARS LATER
(OR 335 DEPENDING ON WHERE YOU ARE STANDING)

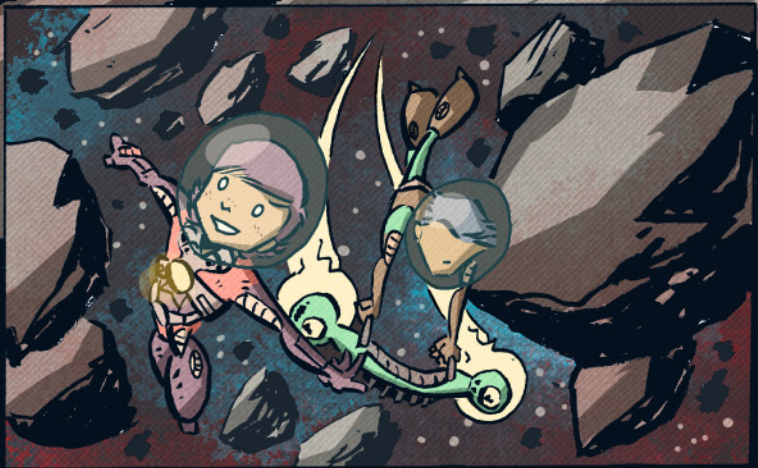

Can you imagine doing anything *more* boring?

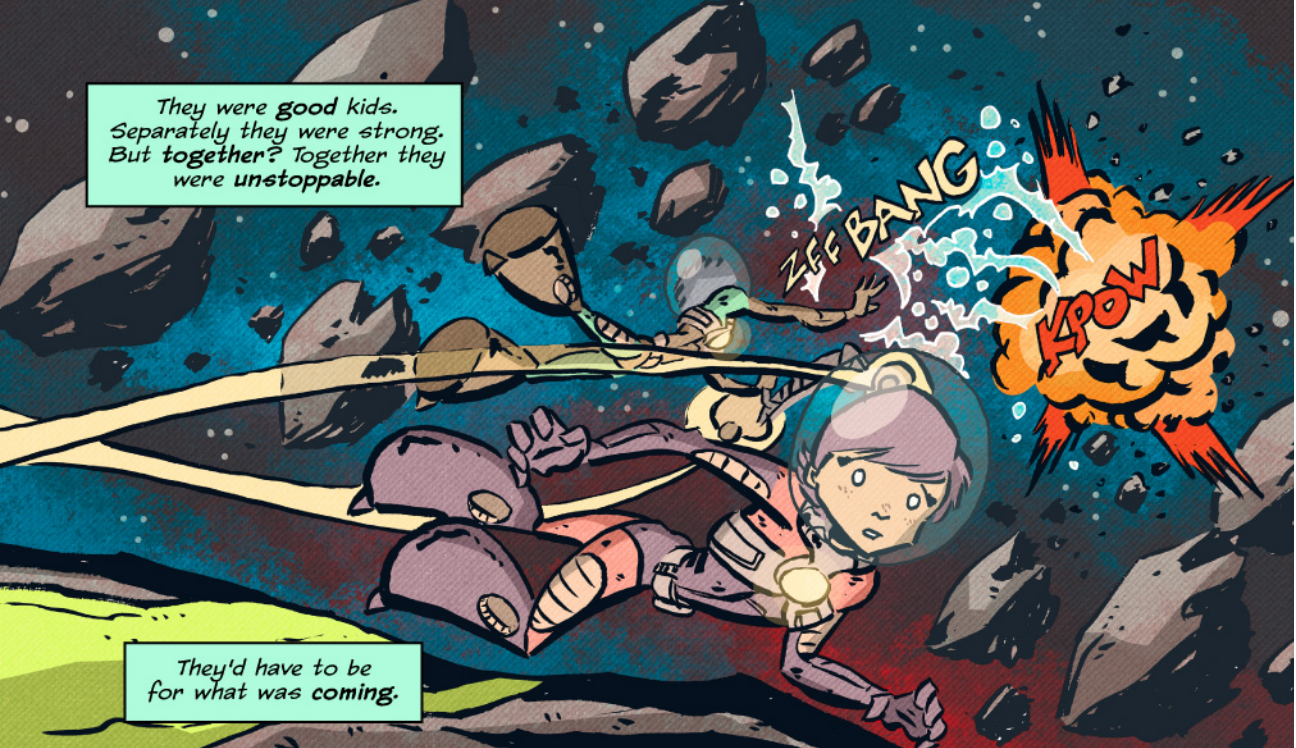

C'mon Yuri, our work is *important* and you know it.

Race ya?

They were good kids.
Separately they were strong.
But together? Together they
were unstoppable.

They'd have to be
for what was coming.

C'mon V,
I *already* scanned
that one.

You go
ahead.

I'll catch up with
you later. There's
something here I
want to check out.

I wish I could have been there for them,
when they needed me the most. But,
that is a story for another time...

Are you *reading*
this? Not sure what
this stuff is.
It's weird.

And who am I,
you're wondering?

I'm their MOTHER.

I'm getting your *sample* now.

...analyzing...

Sticky.
Almost like...

GET BACK TO THE SHIP IMMEDIATELY!

...Nephila Caelum.

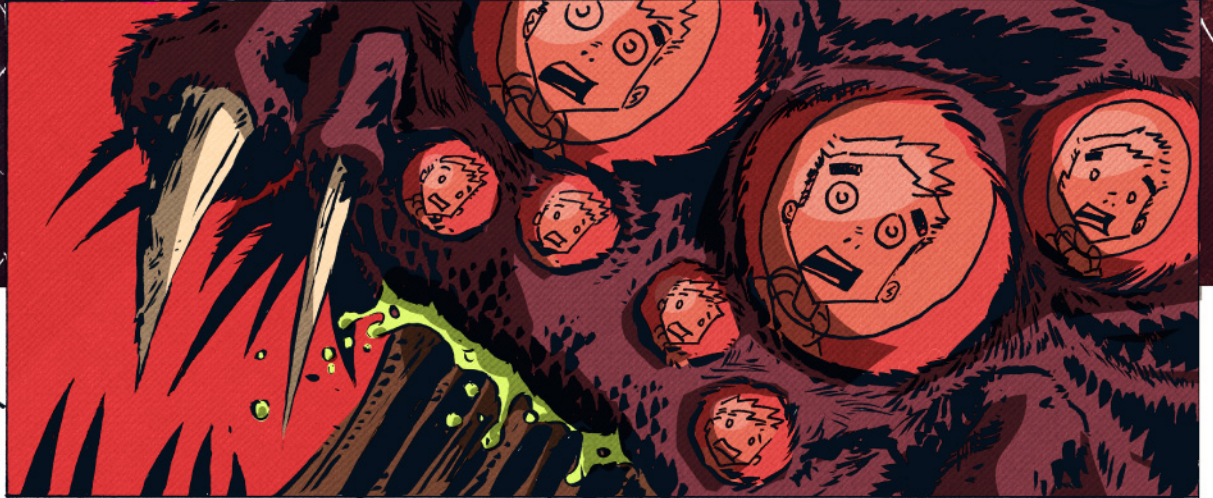

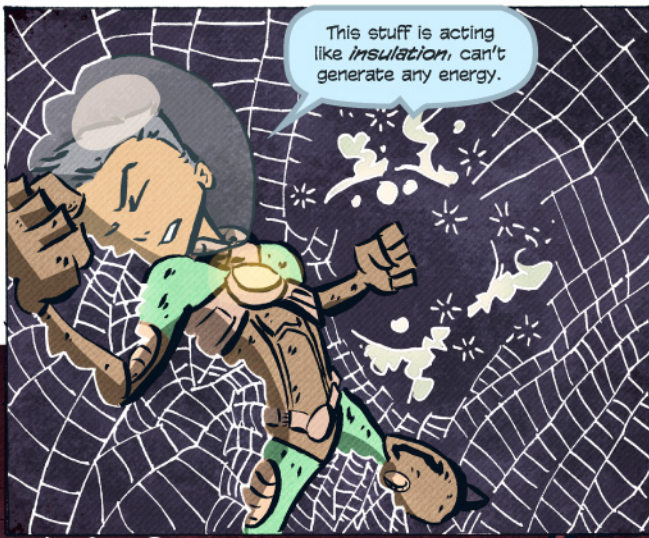

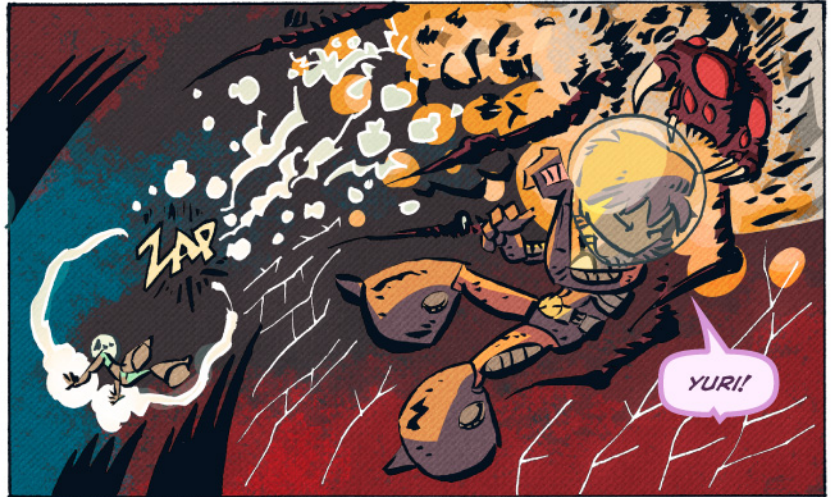

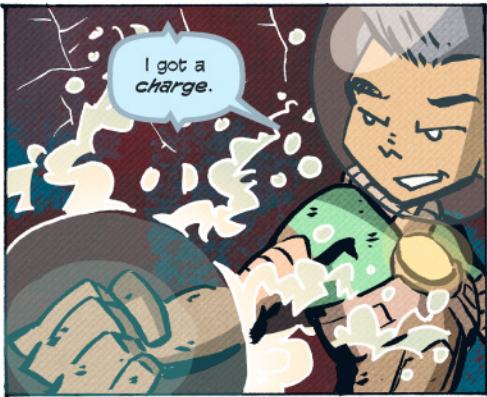

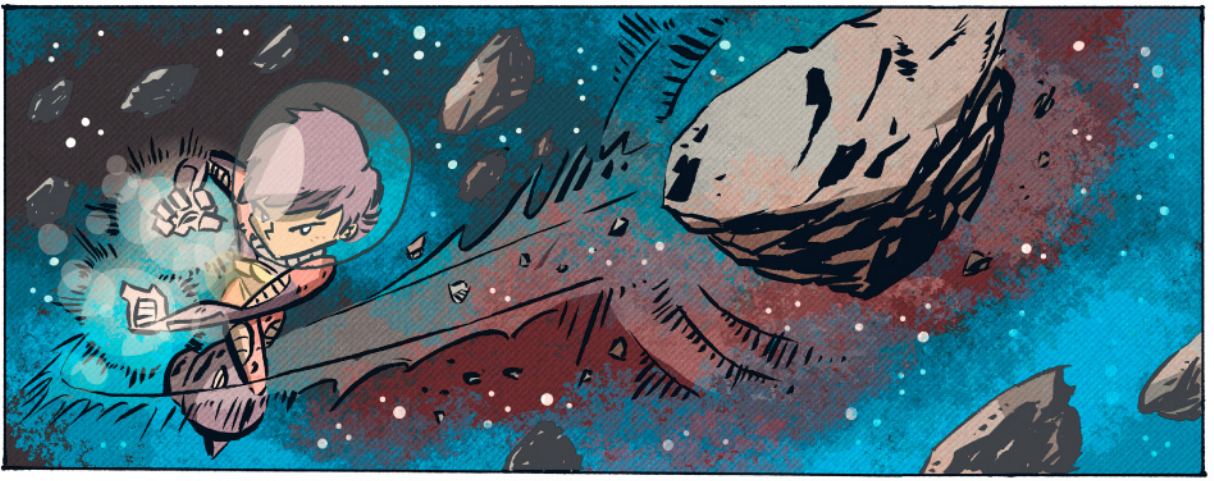

YURI!

SPACE
SPIDERS!

Yeah, I can
SEE that!

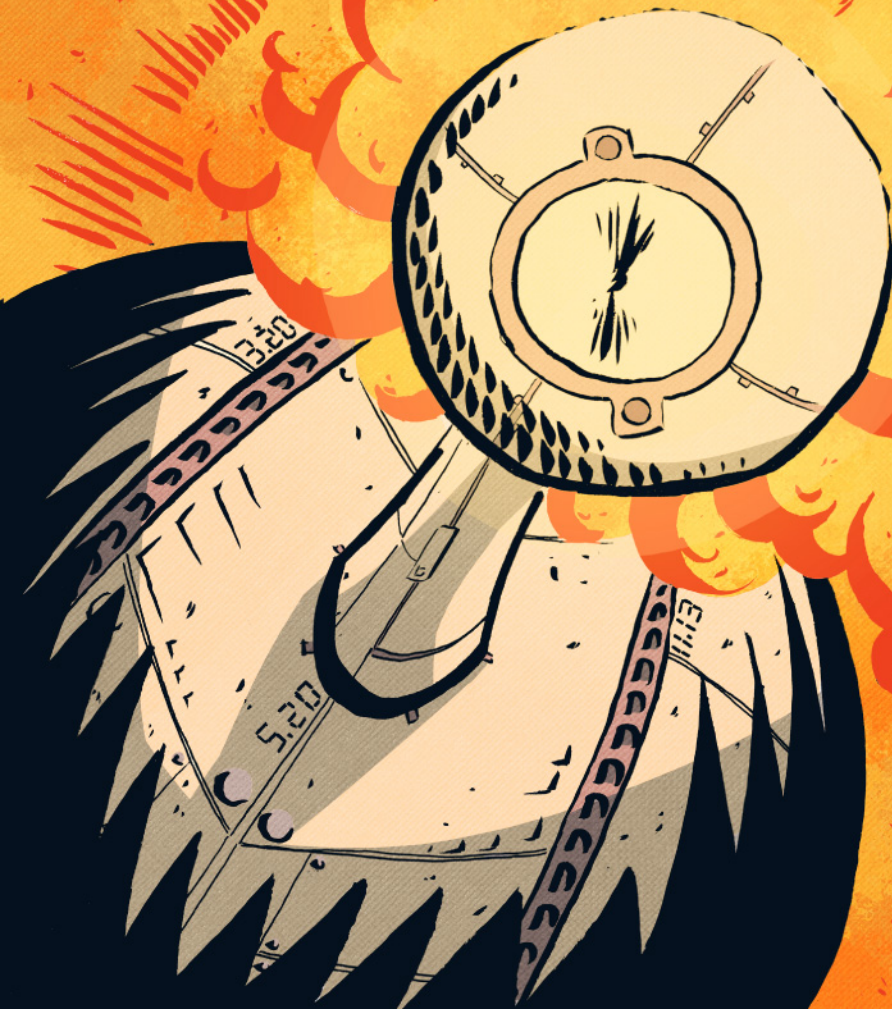

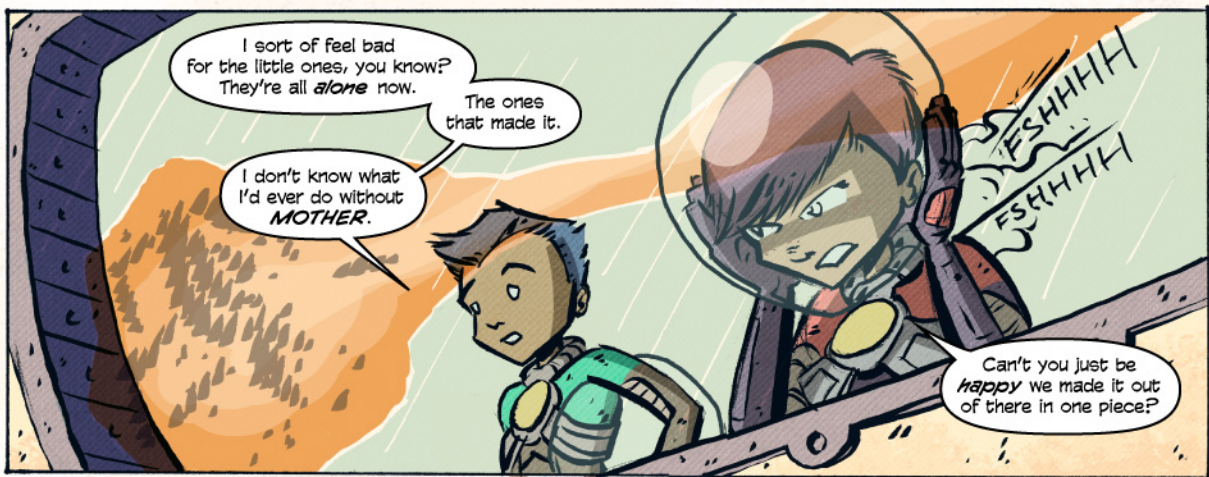

KABOOM

And assuming
I can land this ship
in one piece...

..it's our
new *home*.
